Antique Automobile Club of America

Event Program

September 19-21, 2024

Produced by Hornets Nest Region—Antique Automobile Club of America
Collector Car Flea Market - Auto Show

ENTHUSIASTS CHOOSE COKER TIRE.

COLLECTOR VEHICLE enthusiasts are faced with thousands of choices when it comes to buying tires and wheels. That's where Coker Tire steps in to provide authentic tires and wheels to accurately restore your classic car or give your hot rod the perfect stance. Our company has been around since 1958 and our experience with tires and wheels is unmatched. We manufacture some of the most iconic tire and wheel designs in the world and our tires cover a 100-year range of cars, trucks and motorcycles—we even offer tires for drag cars, military vehicles, scooters and tractors!

With license agreements from Firestone, BFGoodrich and U.S. Royal, we offer authentically-branded tires that are true to the originals, built with modern materials and machinery to ensure a safe and reliable tire for your collector vehicle. In addition to these brands, we produce many other tires under our own branding, such as Coker Classic, American Classic, Excelsior and more. We take pride in our products and stand behind them, so the choice is easy.

Visit our website or speak to one of our tire and wheel experts—we'll be here to serve you.

Brad Slater

The Dual Ghia was a collaboration between Dodge and Ghia. Dodge furnished the chassis and 260 HP hemi V8 powered running gear. Ghia did the design work on these beautiful cars.

The cars were sold through Dodge dealers at around \$7,800 dollars and attracted celebrity buyers including Frank Sinatra, Lucille Ball, Desi Arnez and two future presidents Richard Nixon and Ronald Reagan.

This 1957 Dual Ghia is the fifth in the original production run. The car has been restored to original configuration including Chrysler Vermont Green and NOS carpeting.

Add up good weather, good people, good food and beautiful cars and what do you have?...The annual North Carolina Region meet in Spencer, NC, hosted by the North Carolina Region at the NC Transportation Museum! Once again, the North Carolina Region planned and executed a very successful meet with 40+ Hornets Nest Region members participating – most receiving awards for their AACA show cars.

Our lunch was catered by Debbie Suggs Catering and was well received – especially the banana pudding! Many of our members served as judges in the Event. This provided them with a close up encounter with the many interesting cars. A fun time was had by all!

Hornets Nest Region, AACA Collector Car Flea Market History 1970 - 1978

The Hornets Nest Region, AACA (HNR) has been producing a collector car flea market at various locations in the Charlotte area since 1970. Outgrowing several locations in the Charlotte area, including the original "Heart of Charlotte" motel parking lot on North Tryon Street, Hornets Nest relocated their collector car flea market to the Charlotte Fairgrounds property in 1974. The Fairgrounds property was much smaller in the 1970s than it is today. By 1976, HNR had outgrown the Fairgrounds and needed even more space. Dennis Carpenter (the largest producer of Ford reproduction parts and a Hornets Nest member) and other officers of the Hornets Nest Region were in contact with Humpy Wheeler who had recently taken the management helm at the Charlotte Motor Speedway. The Speedway needed more attractions and Hornets Nest needed more space to produce their collector car flea market.

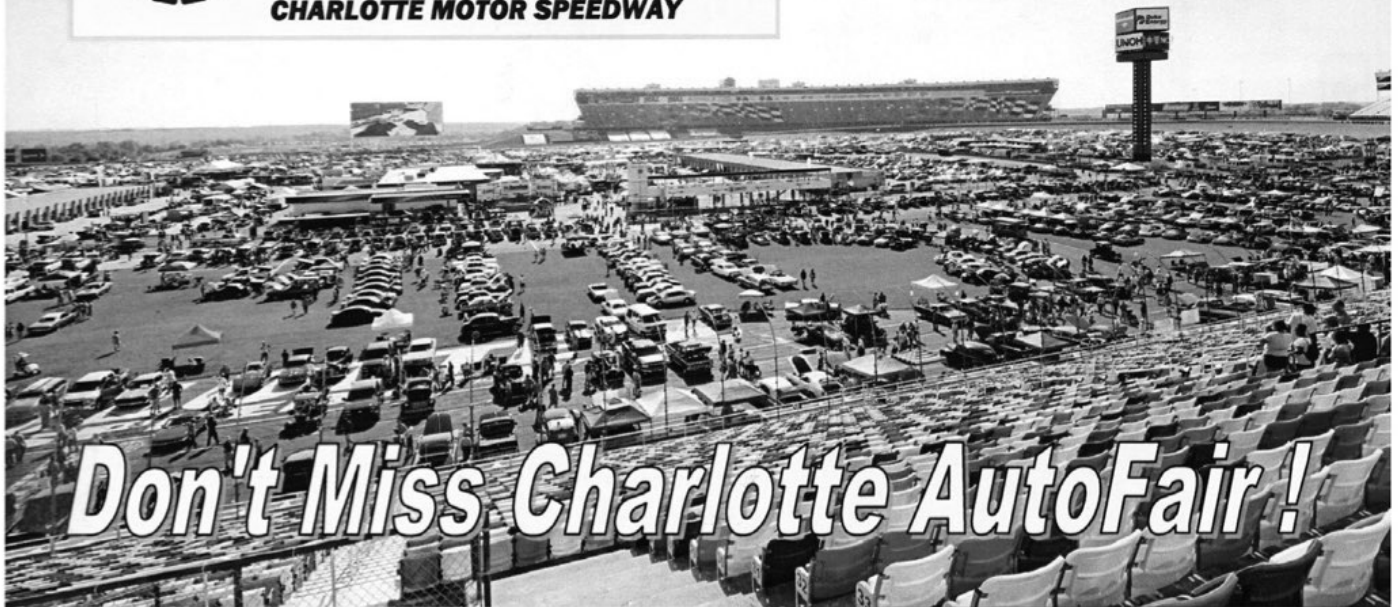

Hornets Nest agreed to move their collector vehicle flea market to the Charlotte Motor Speedway property, beginning in April 1978. After moving to the Speedway, the Hornets Nest Region established a more formal event name – "Charlotte '78" – and the year notation was updated with the calendar. The first year required the sale of about 300 flea market spaces for a variety of antique car parts. There was no admission fee, just good impressions about the interest in collector car parts! All flea market spaces were sold at the gate beginning early Saturday morning. The flea market spaces were marked off with yellow chalk on Pit Road as they were sold. The space size did not matter too much since there was plenty of paved area available. After the first few years, the Hornets Nest Region's collector vehicle flea market grew quickly, soon adding a car corral to showcase collector cars for sale.

Dennis Carpenter Museum

Story & Photos by Jerry Clemmons

1940 Ford that started it all

A great deal of the history of Dennis Carpenter's personal life rests within the confines of the museum bearing his name and visited by the Hornets Nest Region on January 13, 2024.

First and foremost is the importance of the 1940 Ford Convertible in our header photo. During the process of restoring this car, Dennis searched for dash knobs that were not available at the time. He had little choice other than to make his own knobs. Through a long and arduous process of experimentation trial and error, Dennis not only made his dash knobs, but founded the origins of Dennis Carpenter Ford Restoration Parts.

During a 2012 interview with Dennis Carpenter, he revealed the '57 Ford on the right as his favorite vehicle. It is just like his first new car.

Dennis had fond memories of his upbringing in the small town of Dover, Minnesota. The museum reveals that with display rooms of his father's workshop and his mother's kitchen.

The second floor of the museum has examples of every Cushman Scooter Model built. Dennis Carpenter owned a Cushman as a youngster. He rode it to school and with buddies on Sundays after church. A simpler time...no driver's license, registration or tags. Pump hoses at closed gas stations were drained for fuel.

THE CLUB

The Antique Automobile Club of America (AACA) is the country's oldest and largest automotive historical society. A Pennsylvania 501(c)(3) nonprofit corporation, it is dedicated to the preservation, restoration and maintenance of automobiles and automotive history. Founded in Philadelphia in 1935, its membership has grown to over 60,000 members from all parts of the world. AACA holds country-wide competitive Nationals (meets) and non-competitive tours. These are on a divisional basis offering a program within everyone's reach. Tours and activities relating to the hobby are offered, including the Revival AAA Glidden Tour®, Founders Tour, Vintage Tour, Reliability Tour, Sentimental Tour and Divisional Tours. The Annual Meeting features a trade show, seminars and the National Awards banquet.

AACA is proud of its relationship with the many historical organizations devoted to similar objectives the world over. The Club, through its national office, publications and membership, aids individuals, museums, libraries, historians and collectors dedicated to the preservation of automotive history.

VEHICLES

Motor vehicles of all types, 25 years or older, are grouped for competitive purposes into many classes according to age and mechanical features. AACA has a comprehensive judging system that allows members to earn special awards for their vehicles. AACA also recognizes original cars, Historic Preservation of Original Features (HPOF), and unmodified 25 year and older vehicles that are driven, Drivers Participation (DPC). The club also recognizes classes of motorcycles, trucks and documented race cars. Further details can be found in our judging guidelines which are available online at www.aaca.org.

THE MAGAZINE

AACA's official publication *ANTIQUE AUTOMOBILE* is the country's foremost automotive historical magazine. Amply illustrated, it is distributed bi-monthly to all members. It contains many fine historical articles, Nationals (meet) and tour accounts, technical articles on restoration and other material. In addition, it includes commercial and classified advertising. Advertisers may obtain a rate card from Antique Automobile Club of America, National Headquarters, PO Box 417, Hershey, PA 17033.

REGIONS AND CHAPTERS

There are approximately 400 regions and chapters chartered by the Antique Automobile Club of America worldwide. Regions and their chapters are administered in an autonomous manner holding their own meetings, collecting local dues and conducting runs, meets and other events under the direction of the respective elected officers. Membership in the national Antique Automobile Club of America is a prerequisite to joining a region or chapter.

AACA LIBRARY & RESEARCH CENTER

"America's Automotive Library"

Founded in 1981, the AACA Library & Research Center provides historical research concerning the origins of and the development of motorized vehicles of all types. The library will assist hobbyists in the restoration and preservation of their antique vehicles. The AACA employs a full-time library staff to better serve the membership. Photocopying (including color) and research services are available through the Research Center at nominal fees. Members qualify for 2 hours of free research. Visit www.aacalibrary.org or call 717-534-2082.

Want a Tax Deduction?

Donate Your Vehicle

Hornets Nest Region Foundation, Inc.

9307-H Monroe Road

Charlotte, NC 28270

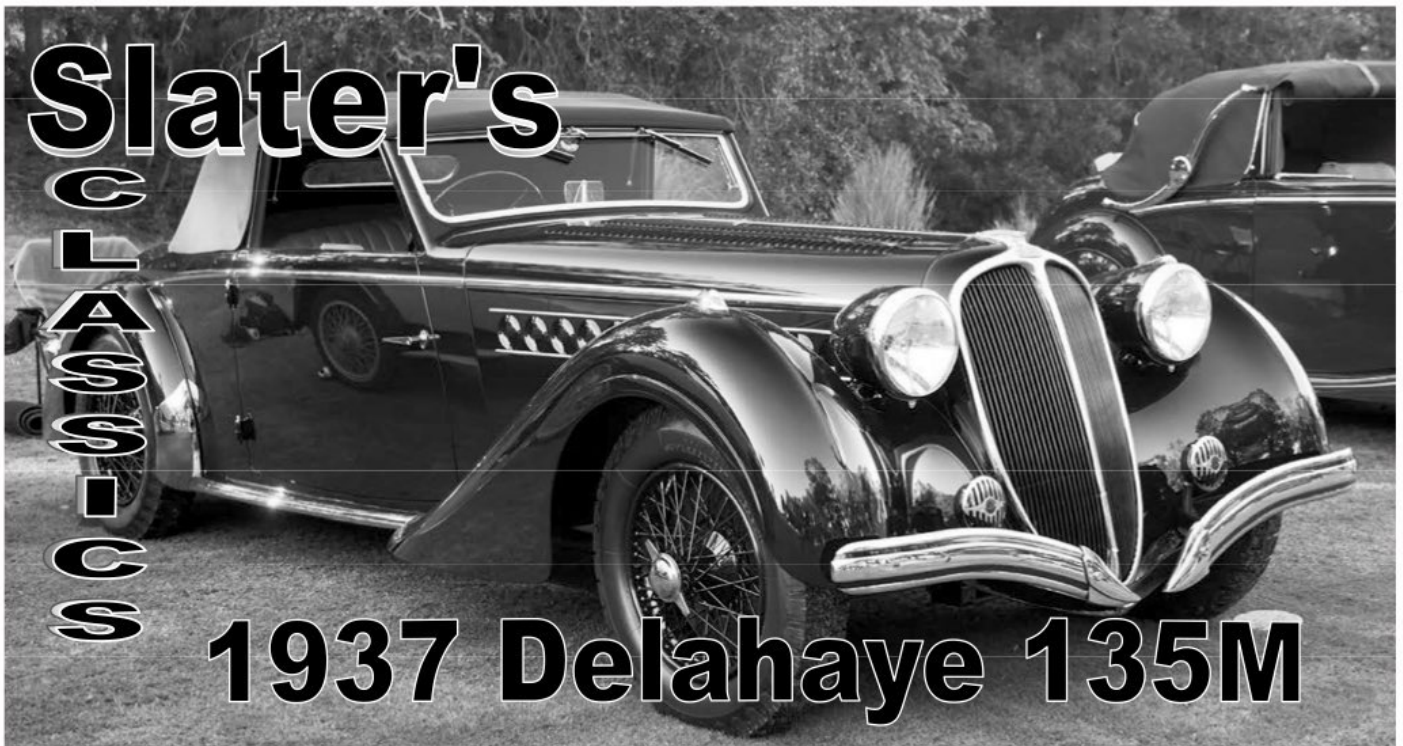

Information: 704-841-1990

The Foundation provides scholarships for student members of the Hornets Nest Region; donations supporting automotive education at area colleges; donations supporting area automotive museums; and donations supporting the AACA Museum, AACA Library, and other programs of the Antique Automobile Club of America.

The Hornets Nest Region Foundation, Inc is a non-profit tax exempt organization under IRS 501(c)3. The Foundation is an entity of the Hornets Nest Region, AACA – the Region produces the Charlotte AutoFair Spring and Fall collector vehicle events at the Charlotte Motor Speedway – since 1978.

Always consult your tax advisor to determine to what extent a vehicle donation to the Foundation may be deductible.

Brad Slater

Over the next few months Members' Parade will feature stunning Brad Slater photos taken at the 2023 Hilton Head Concours d'Elegance

This 1937 Delahaye earned Best of Show at the inaugural Detroit Concours d'Elegance in 2022 and was certainly an eye catcher at this year's Hilton Head Concours event.

The car's 3.5 liter six cylinder engine developed 120 HP that was sent to the differential via a four speed electric shift transmission. The combination made for a competitive road racing car.

North Carolina Transportation Museum

By Cheryl Cole

Well, actually anything that could transport goods or people – carts, wagons, trucks, boats, bikes, buggies, dugouts, tractors, etc. – all on display at the North Carolina Transportation Museum in Spencer! Seventy HNR members visited the museum on Saturday, February 18th, and enjoyed the exhibits, the fellowship and the delicious hot lunch provided by Debbie Suggs, caterer.

Several grandchildren joined us for the day including Jeff Parker's two grandsons and Nick Wilken's grandson, Harrison – who is often seen at HNR meetings proudly wearing his HNR jacket. Harrison's favorite vehicles were the fire trucks. Afterall, he is an honorary Junior member of the East Lincoln Fire Department in Denver!

My personal favorites were the gorgeous 1935 Packard and the "Merci Train" or "Gratitude Train". The French sent 48 of these boxcars loaded with gifts of toys, clothes, art, and books as a thank you for the boxcars that Americans sent filled with food and medi-

cal supplies to support France during WWII. All this was new to me and very interesting.

We welcomed several guests and numerous fellow HNR members who have been "under the weather" recently. It was great seeing everyone talking and fellowshiping with each other. My biggest 'faux pau' of the day was asking Barbara Hall if Debbie Smith was her daughter or sister!!! Debbie really looked good! As part of our outreach, meals were delivered to some of our folks who have been missing recently and the leftovers were then donated to the Transportation Museum staff – who were great in helping us in any way they could.

Thank you, Roger and Amy, for making this day possible for us! We all look forward to many more fun, exciting and educational events in 2023!

HNR Member Earl Tindol's 1966 Sunbeam Tiger

By Phillip Cole

Nowadays, Sunbeam Tiger enthusiasts call the Tigers produced from August 1965 to February 1966 the Mark IA. Actually, Sunbeam never added an "A" designation to the Mark I Tigers during their production. Thus, this unofficial designation is used to describe the Tigers which were based on the new Series V model of the Alpine. The best way to determine a Mark IA is by the VIN which begins with B382XXXXXX. Beyond the VIN, the most noticeable difference is in the doors. The Mark I has rounded corners on the door bottoms, while the Mark IA has a much sharper lower trailing corner edge. That same sharpening of corners is also evident in the hood and the trunk lid. As far as Sunbeam was concerned, they were still making the Mark I Tigers, so the Mark IA came equipped with the same 260 ci Ford V-8, as well. Lord Rootes' decision to order those 3000 260s had allowed the company to continue producing a 260-powered Tiger through early 1966.

The real change for the Tiger came with the Mark II when it was upgraded to Ford's 289 ci V-8. This bigger V-8 helped the Mark II's performance, dropping its 0-to-60 time to 7.5 seconds and increasing top speed to 122 mph. This new, more powerful motor made for a significant performance increase, providing 36 extra horsepower and 24 extra ft.-lbs. of torque. From the driver's seat, another noticeable difference between the two generations is interior ventilation. Mark II Tigers have cowl vents that make them much more comfortable on hot summer days. The introduction of the Mark II gave Sunbeam an upgraded high-performance sports car. Sadly, the Mark II wouldn't reach production until December of 1966, and only lasted seven months into June of 1967. All units were sent to the United States.

Sales or performance was not what eventually killed the Tiger. It was the corporate struggle of the Rootes Group. By mid-1964, after a devastating strike and the expensively late

launch of the Hillman Imp, the Rootes Group found itself in seriously deep financial trouble. Hoping to build a presence in Europe, Chrysler offered to purchase a £12 million stake in the Rootes Group. That stake didn't equal controlling interest in the company, but it put a lot of pressure on the Rootes Group management team, especially when Sunbeam's sports car featured power from Chrysler's biggest competitor; namely Ford. Subtle changes in the Mark II's advertisement and the car itself became evident. Print ads no longer touted "Powered by Ford", instead the language shifted to "an American V-8 powertrain." The callouts on the fenders never indicated that the engine was Ford's familiar 289, instead indicating a more generic "V8". Below that badge, behind the wheel opening, later Mark IIs had the Chrysler Pentastar emblem. Other minor changes included the egg-crate front grille and the "Sunbeam" and "Tiger" emblems. In the earlier cars, "SUNBEAM" was spelled out in block capital letters across the hood and decklid. On the Mark II cars, "Sunbeam" became a smaller script on the left side of the hood, with a "Tiger" script mounted to the right side of the rear decklid, topped with the Sunbeam brand in a parallelogram emblem just above it. Still, all this camouflaging didn't hide the Ford drivetrain, and Chrysler was not prepared to use one of its motors. In the end Chrysler's influence provided the demise of the Tiger.

Thus, the Mark II is the true second generation for the Tiger. Mark II VINs begin with B382100XXX. In all, Sunbeam Specialties notes that just 536 Mk IIs were produced.
